Publicity and Advertising

Advertise your social action opportunity to our network of over 30,000 students across 10 UK Universities. We send out weekly newsletters in each of our 10 Hubs giving students the run down of events and activities on campus, in the local area, nationally and internationally.

We offer three different options for advertising with us:

- **Standard Package** - Your advert in newsletters two weeks of the year. See below for pricing.
- **Annual Membership** - Your advert in newsletters five weeks of the year. This is priced at double the cost of the Standard Package (see table below).
- **Newsletter Takeover** - Rebrand of the newsletter(s) to reflect your organisation's colours, your logo at the top of the newsletter, an introductory blurb from your organisation, and placement of your advert at the top of the newsletter.

Events and Conferences

Our conferences and speaker events inspire students to shape a better world - introducing them to world-class speakers from high-profile organisations across the charity, social enterprise, private and public sectors. You can join students at the start of their social action journey by becoming a speaker or sponsoring one of our game-changing events.

Partner on the Social Innovation Programme

The Social Innovation Programme (SIP) provides a pro bono student consultancy service for charities and social enterprises. The SIP is designed to bring about a dual-positive outcome: to support organisations to improve their outcomes for user groups by increasing their capacity and providing new perspectives, and to support students to have a greater awareness of social issues and give them the practical experience to create a tangible impact in the future.

Training

Student Hubs provides training to over 2500 students every year on a wide range of key skills they can apply to their social action projects. These sessions are designed to equip students with personal and professional skills that will help them to excel in their social action projects now, and take with them into the world of work upon graduation. We work with Universities and third sector partners to organise tailored training packages for local, national and international volunteers.

Host an Intern

The Social Impact Internship Scheme selects over 100 exceptional students from our network each year, and matches them with non-profit organisations that would like to benefit from their skills and enthusiasm. Already recruited an intern? We can offer them a comprehensive training programme which will enhance their time and outputs with your organisation.

Headhunting and Recruitment

Grow your talent pipeline by accessing our network of talented and committed graduates. If you are recruiting for graduate-level jobs or internships, we can connect you with the best candidates. Our recruitment packages range from support with advertising your positions, through to targeted headhunting and organising interviews and assessment days.

Incubation and Consultancy

Use our expertise to evolve your organisation. We can offer you support in Communications, Design, Impact, Strategy and Fundraising, as well as consultancy on engaging students in your work.

Use our Venue

You can hire our social space for social change in the heart of Oxford. Our premises is home to a host of social spaces: meeting rooms, events space, offices, a library, bar, and the Turl Street Kitchen - our very own cafe-bar-restaurant serving fresh, seasonal food. Our space is the only building in the UK dedicated to student-powered social change.
